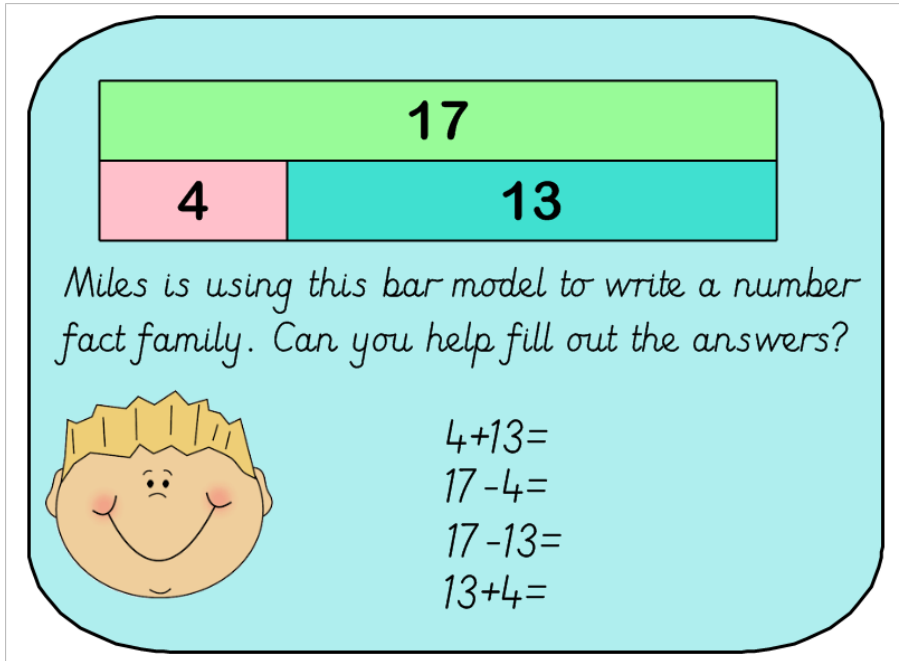
Y2 Mental Maths 4 – 15 questions, try to do 3 every day

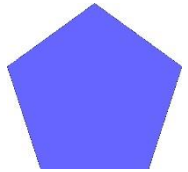
1) What is 8 add 9?
2) What is 21 minus 6?
3) Write down the number 35 in words.

1) What do you need to add to 7 to make 20?
2) Find the difference *(take-away or count back)* between 20 and 16, or, 83 and 78.
3) How many minutes are there in one hour?

1) What is the number that comes after 69?
2) How many tens are there in 30?
3) Add up the money. How much have I got in total?

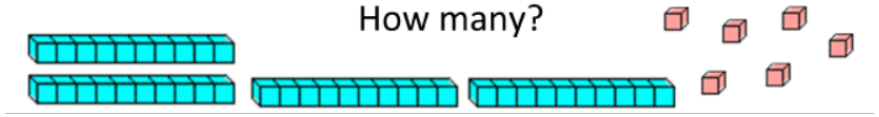


1) How many corners does a pentagon have?



2) Tick all the 3d shapes below.

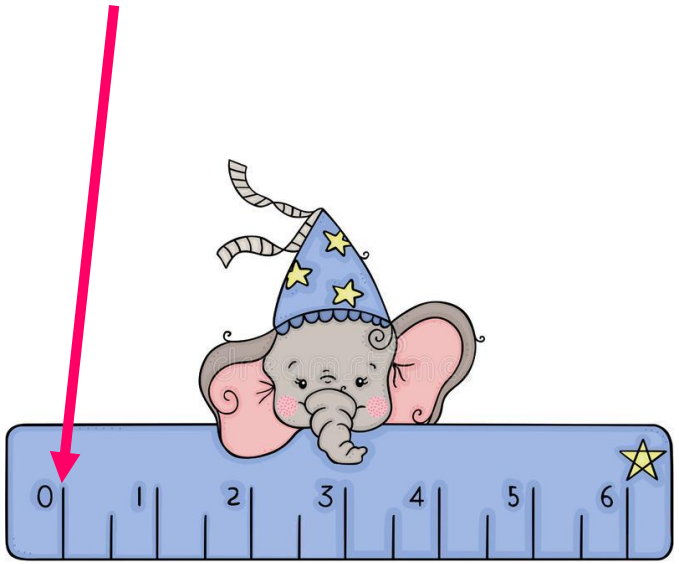
3) How many?



Measuring Length

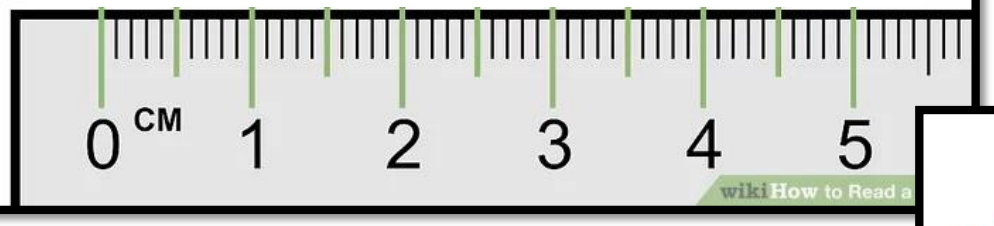
When you measure length, it's always important to make sure that you start at the 'zero' on your ruler.

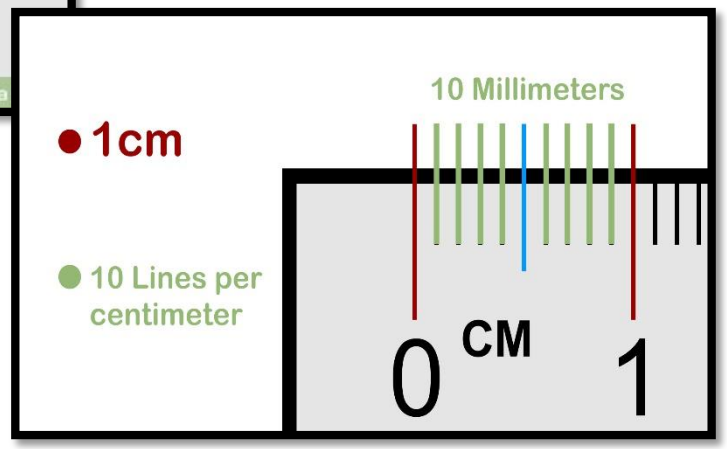
If you use a tape measure, it's the same. Remember to start at zero.



Our school rulers go up in centimetres (cm) and in millimetres (mm).

The big numbers show cm and the little lines are mm.



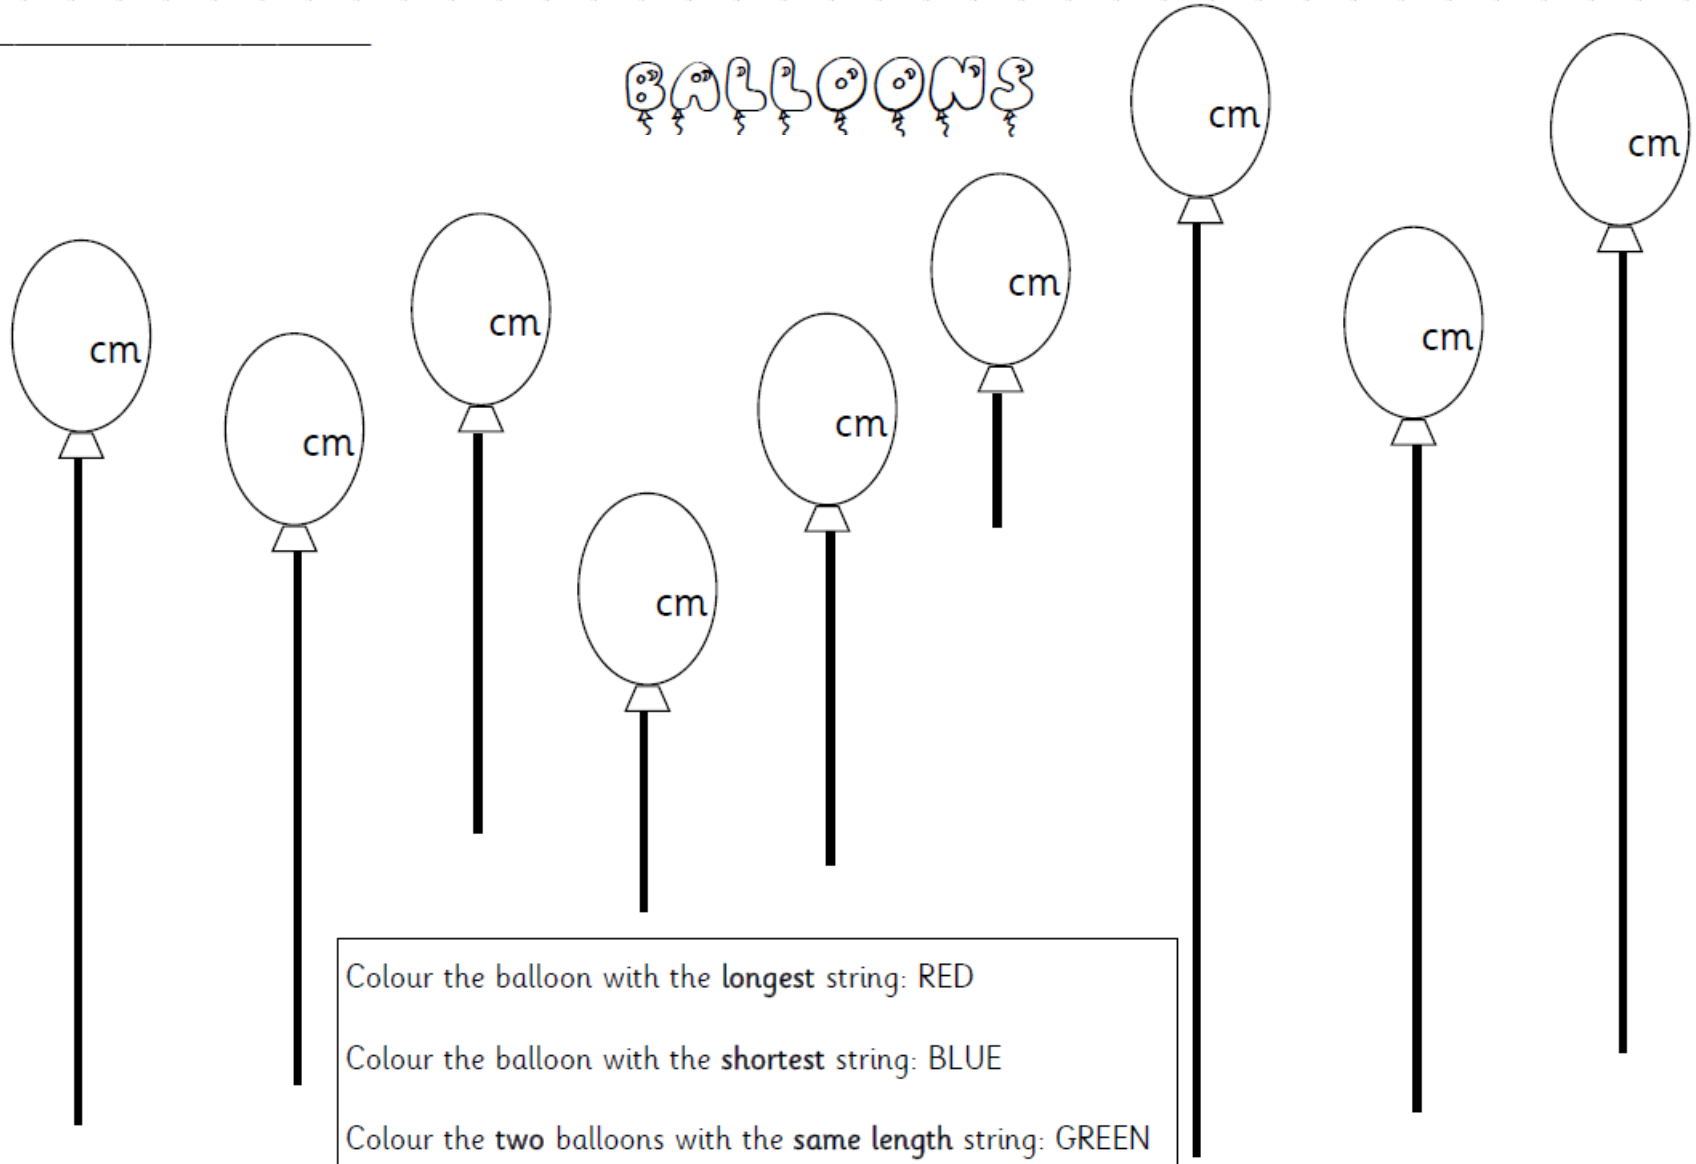


Measure the length of these lines with your ruler.

Remember to make sure that you start at the zero.

1) Draw a line that is 4cm long.
2) Draw a line that is 6cm long.
3) Draw a line that is 1cm long.
4) Draw a line that is 10cm long.
5) Draw a line that is longer than 5cm.
6) Draw a line that is shorter than 8cm.
7) Draw a line that is in between 3cm and 7 cm.

BALLOONS



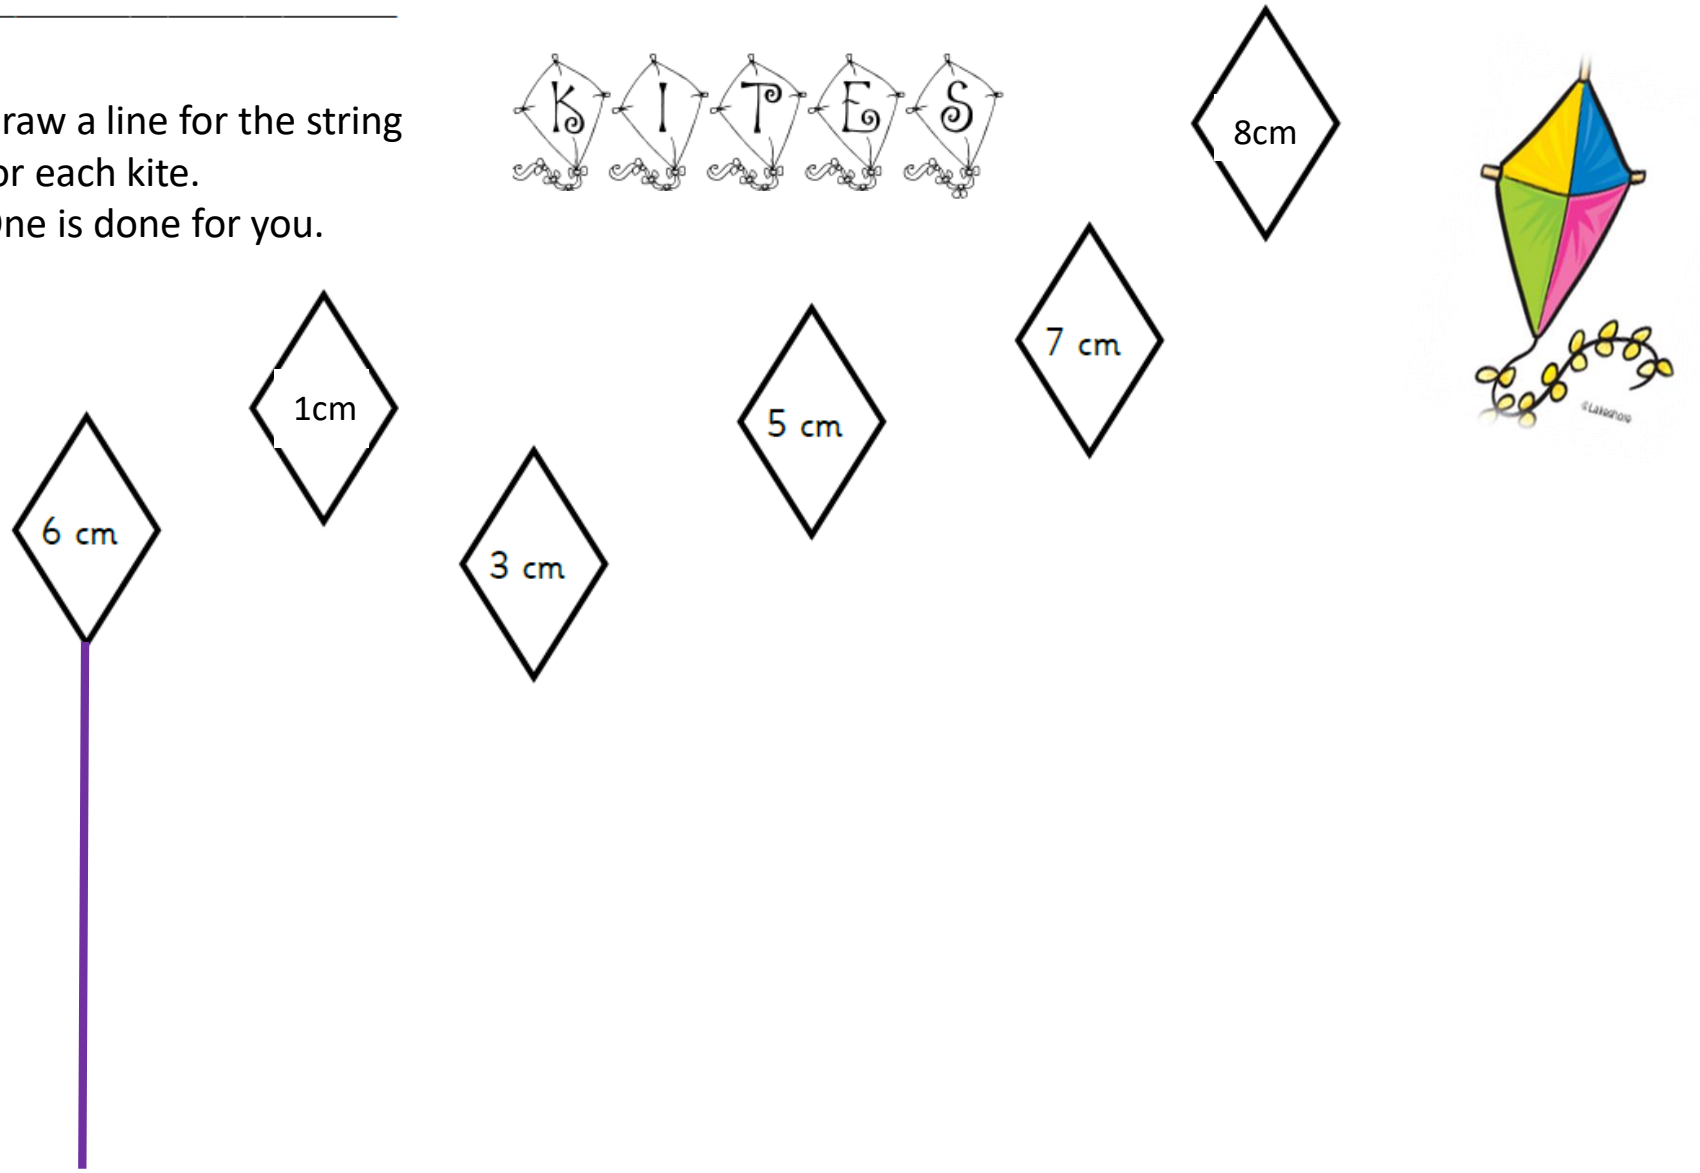
Colour the balloon with the **longest** string: RED

Colour the balloon with the **shortest** string: BLUE

Colour the **two** balloons with the **same length** string: GREEN

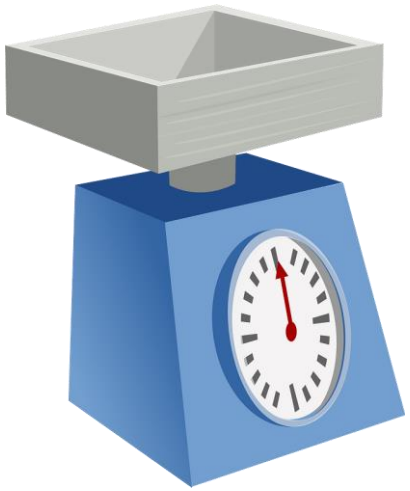
Draw a line for the string
for each kite.
One is done for you.

KITES



Measuring Mass

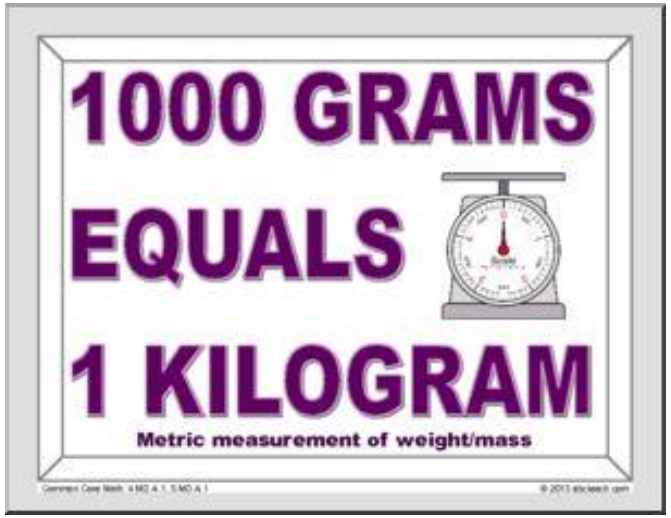
When you measure mass, it's always important to make sure that you start at the 'zero' on the scale.

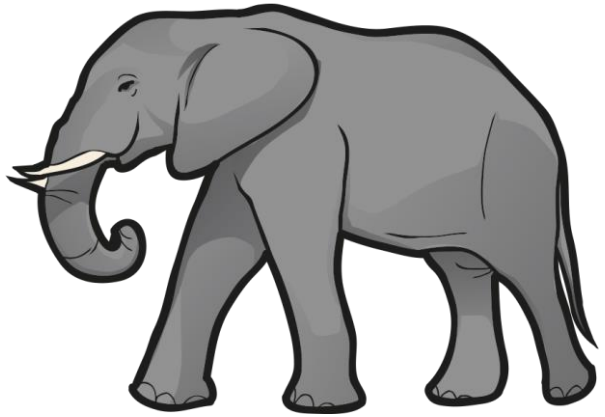


You measure mass when you bake something. A recipe needs to be followed carefully so that whatever you are baking is baked as it should be so that it tastes great!

It's also important to know how to covert between the different units of measurement of mass.

E.g. there are 1000 grams in 1 kilogram (kg).





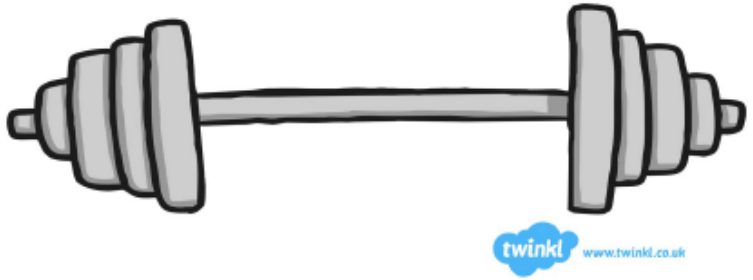
Measurement conversions

Weight

1 tonne = 1000 kilograms

1 kilogram = 1000 grams

1 gram = 1000 milligrams



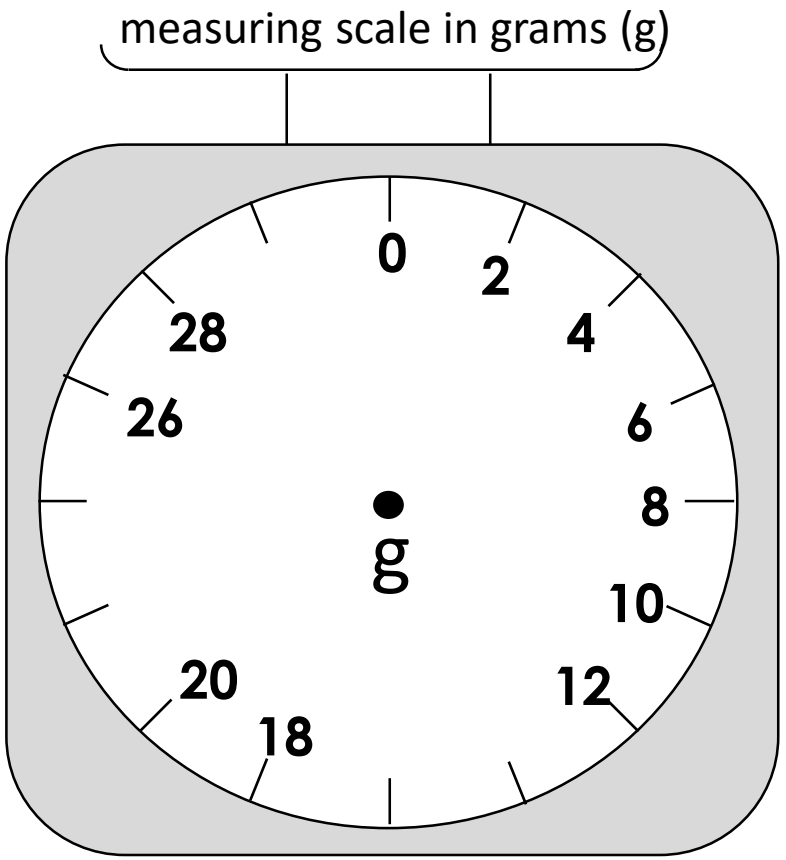
t

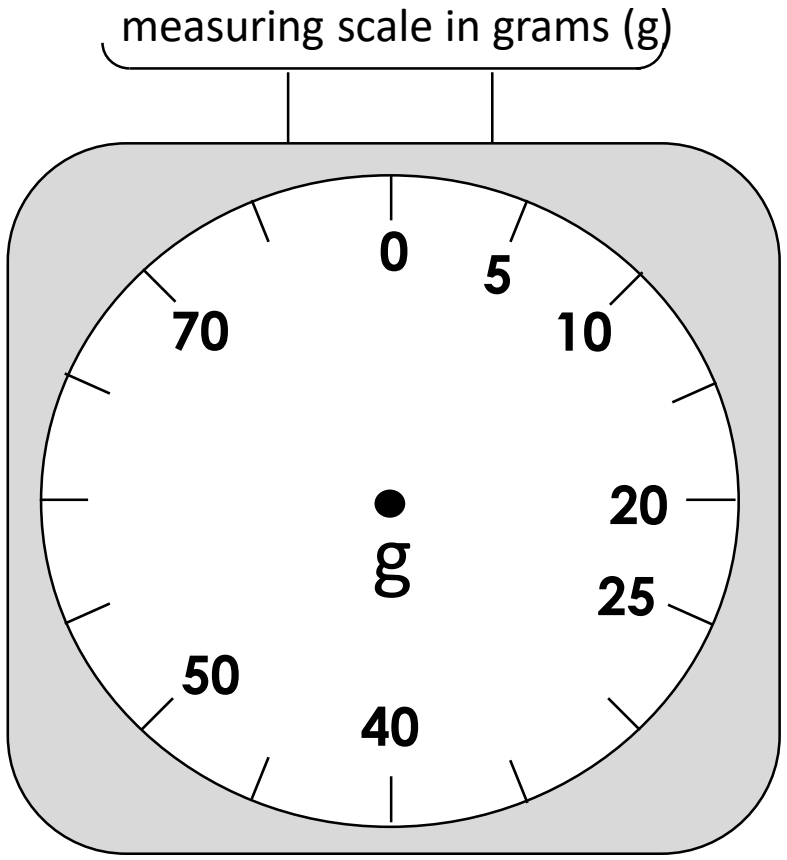
kg

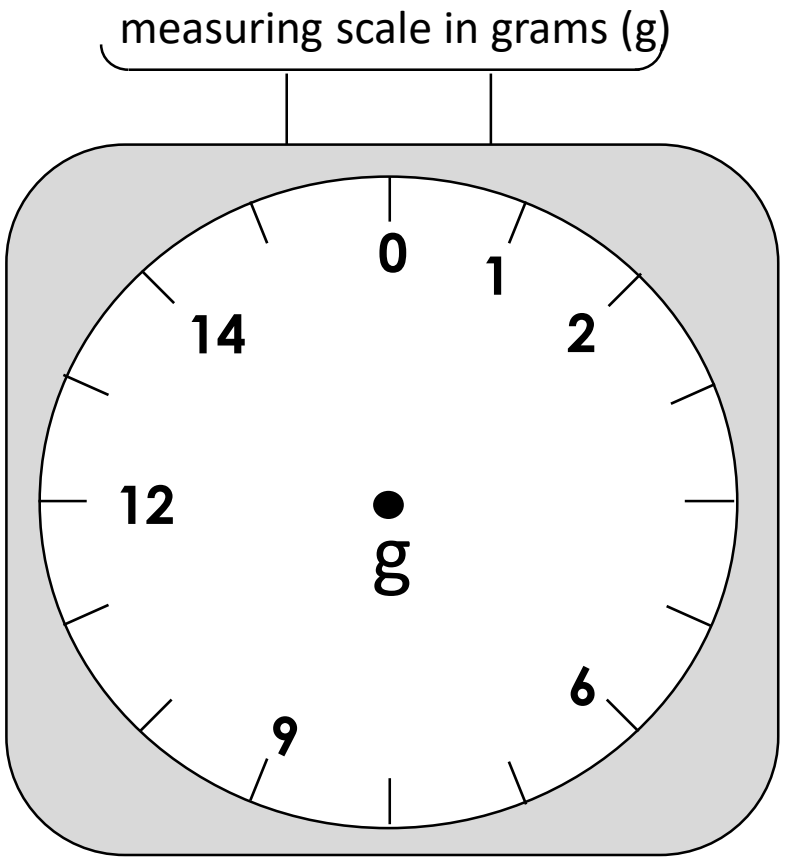
g

mg

Write in the missing numbers on the scales.
RT: Work out what the scale is going up in.



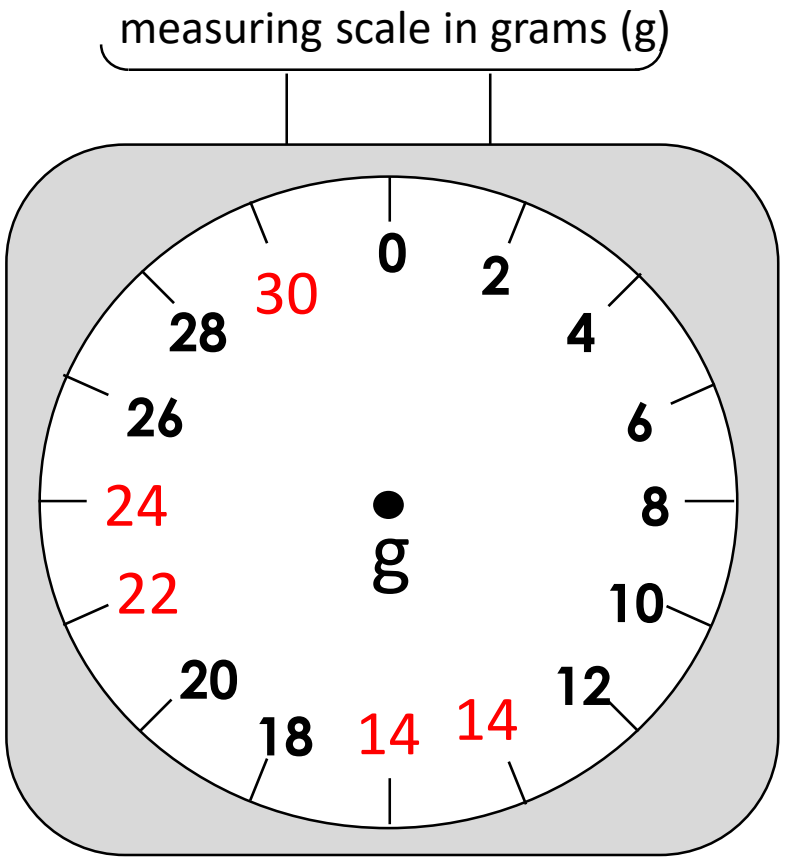


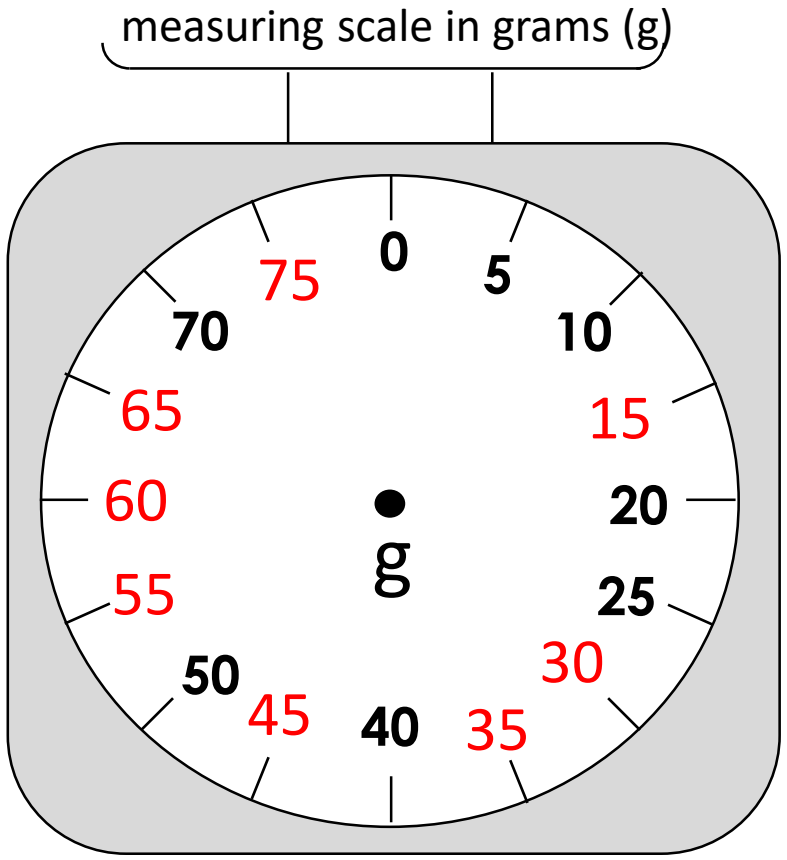


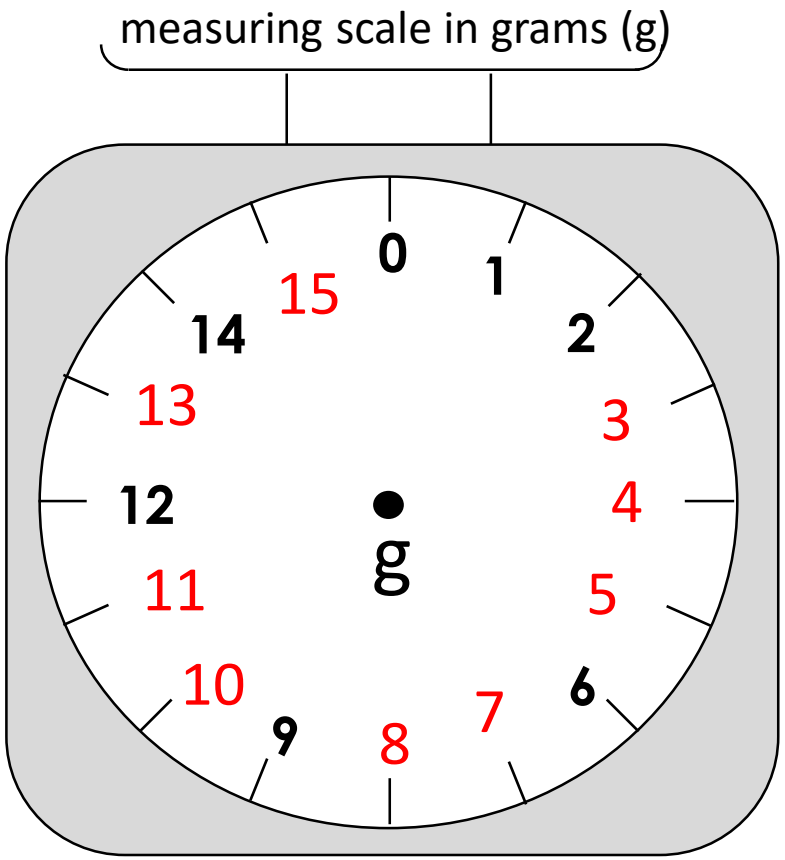
Answers

Write in the missing numbers on the scales.

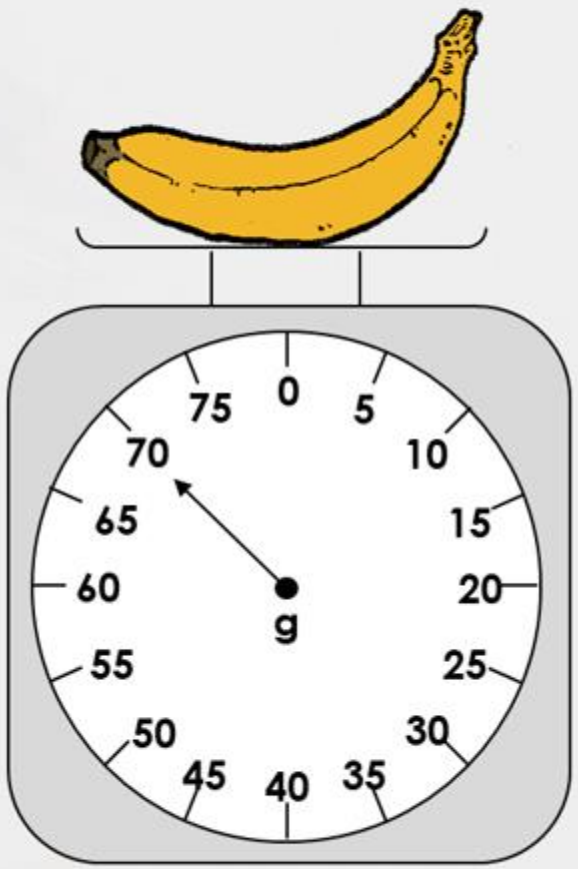
RT: Work out what the scale is going up in.







How much do these items weigh?



Weigh-In at the Zoo

The vet has come to weigh the animals at the zoo.

lion	tiger	hippo	monkey	zebra	chimp	rhino
205kg	240kg	500kg	50kg	150kg	125kg	650kg

Fill in the correct sign (<, > or =) to make these statements correct:

lion		chimp
zebra		rhino
tiger		lion
hippo		rhino
chimp		rhino
