

EYE OF THE TIGER!

Holmfirth JIN Newsletter June 17th 2016

With so much happening on the sporting front, including the European championships, Wimbledon and Test cricket, we thought that we would add to the mix! This week, our teams competed at cricket, cycling, mini-Olympics and tag rugby. All teams represented the school in fine style.

Elsewhere, our pupils have been to Castle Hill and Yorkshire Wildlife Park, in order to provide stimulus and connection for learning.

On a creative note, stories have been written, solar biscuits have been baked, cards have been created and scenery has been constructed.

All these events paint the picture of a school which loves to be active, outdoor and creative. By designing such learning activities, all staff members are encouraging children to work as a team, to co-operate and to socialise. It is in moments like these where memorable experiences are established.
