

Hello Reception children, parents and carers,

I hope you have had a good week, I have had some lovely emails this week, thank you. It is so lovely to see all the amazing things you have been up to. Every week Nessy send me an email so I can see how long you have spent on Nessy and how many activities you have done. A big well done to everyone who has spent some time on Nessy, it will help you so much. ☺

I have been busy in the garden, again! I have had to make a big new vegetable patch because I have got so many lovely plants. When I feel a bit fed up and a bit sad that I can't go to school and see you all I like to go in my garden or go for a walk. I have seen some of you in your gardens and going for a walk too. This week is going to be very hot, Spencer says-

Put a hat on and
some cream.

This week our whole school learning topic is 'Space.' I know you did a 'Space' Show and tell topic but there is so much to learn about Space, hopefully you will find some new things to do.

This week's science is about 'sensory gardens.' Do you remember learning about our 5 senses?

We won't be thinking about tasting plants because that could be a bit dangerous! Some plants are poisonous! Start looking out for things that smell really nice or feel nice, but don't feel any nettles!

Lavender smells beautiful

Lamb's Ear feels really soft

Look out for this later in the week.

Don't forget you can send any of your work for us to see at our new home learning email address.
